

Individual Equipment

INVESTICE DO ROZVOJE VZDĚLÁVÁNÍ

Operační program Vzdělávání pro konkurenceschopnost

Název projektu: Inovace magisterského studijního programu Fakulty ekonomiky a managementu

Registrační číslo projektu: CZ.1.07/2.2.00/28.0326

Warm-up

Work in pairs.

Talk to your partner and try to describe your individual equipment. Make a list of vocabulary concerning your individual equipment.

Look at the picture in additional material British Army Infantry Individual Weapon. There are no names of its parts. Work in pairs and try to figure out their proper names. After that, check your answers with the teacher.

Work with another additional material. It deals with weapons' specifications. Listen to the recording your teacher will play and fill in the missing data in specifications.

Read the text about the problems with reliability of SA80/A2 which has been used in Afghanistan. Answer the following questions.

- 1 What was the most serious problem reported about SA80/A2 rifle?
- 2 List three conditions in which SA80/A2s were tested.
- 3 Name four modifications which Heckler and Koch made to the weapon.

Check your answers with the teacher.

Work in pairs. Then summarize the main ideas to the whole class.

- 1 What is the individual weapon (IW) in the Czech Armed Forces?
- 2 Is it similar or different from the weapons discussed in this lesson?
- 3 What is your personal experience with individual weapons?
- 4 How often do you go to the shooting range?
- 5 Do you find the shooting training satisfactory?
- 6 What safety precautions do you have to follow before, during and after shooting?
