

Self-Study Task

(The Economics of International Terrorism)

1. Try to make own definition of international terrorism. Is this a phenomenon new event or mankind have to fight the terrorism for long time?
2. Do historical analysis of terrorist attacks and compare their form, aims and used means with nowadays examples of terrorist activities.
3. Choose a few examples of terrorist attacks and make their short characterisation (for example number of attackers, who organise, number victims etc.).
4. Explain economic aspects of terrorism and terrorist attacks. Discuss microeconomic and macroeconomic impacts of terrorist activities.
5. Describe mechanism of terrorism funding. What kind of sources of terrorist activities is known?
6. Try to calculate impact of selected terrorist attacks. How can we evaluate the price of terrorist attack?
