

**Task 1: Error Correction**

SB

**Instructions:** Read the following report of an incident. Identify and correct the errors (e.g. inappropriate use of tense, incorrect sequencing, punctuation, spelling, etc.) and rewrite it on the following page.

**Incident Report**

This report is giving my account of the incident which occurred to 2Lt Sam Bourque during playing at hockey in the base tournament in the evening of Friday 9 Nov around 2030 hour. The accident happened five minutes into our first game of the tournament at the end of his first shift 2Lt Bourque was coming off ice for a line change as he skated towards our players' box, he was losing the control, tripped, fell backwards and slid feet first into the boards, who resulted in the injure to his right foot. The hockey game in question was the first of a tournament hold on the base on the weekend of 9, 10 and 11 Nov. it was organized by base PERI staff and officiated by the same. In pain, he managed got up with help of a teammate Steve Côté. He then back and forth limped behind the players' bench shortly afterward he has gone to the dressing room while the first intermission I lent Cpt Bates keys and utilized his truck to took 2Lt Bourque at the hospital. I was accompany by Jean Davis Bourque's friend. I leaved Bourque with the MIR staff, returned at the game. It is important to stress that the accident occurred during a stoppage in play and that 2Lt Bourque was not bump or hitted by anyone while he was falling. It is unpreventable and uninduced. It is just bad lucky.
