Course name: Leadership II
Instructor: PhDr. Ing. Vratislav Pokorný
Prepared by: PhDr. Ing. Vratislav Pokorný

Topic: Effective decision-making and acting in demanding situations.

Educational goal:

To introduce principles, processes and models participating in acquisition, discernment and generation of adequate information and knowledge for decision-making and acting in demanding situations.

Contents:

1. Organizing information and knowledge, generating knowledge in task solving, so-called fast and slow thinking.

2. Sharing and decision-making in team (the interview method and its modifications – dialogue, discussion and others).

3. Solving linear tasks in team.

4. Individual, micro-team and heuristics.

Individual assignments:
