Written preparation

Course name: Leadership II
Instructor: PhDr. Ing. Vratislav Pokorný
Prepared by: PhDr. Ing. Vratislav Pokorný

Topic: Psychological aspects of decision-making and acting in combat situation (asymmetry and lack of information).

Educational goal:

Specific characteristics of learning and decision-making processes of individuals in demanding, limit and extreme conditions. Possibilities to know, affect, regulate and train optimal processes.

Contents:

1. Rationality, intuition and emotions in decision-making and acting processes.
2. Reflexive and reflected, Hick’s law, flow effect and other aspects participating in decision-making and acting.
3. Cognitive dissonance, reality, information and knowledge vs. facts and illusions.
4. Frames, limits and barriers of learning and decision-making, possibilities, principles and methods of identifying and affecting them.
5. Drills, their meaning, effectiveness, possibilities, limits and risks.
6. Proactivity and reactivity, solving model linear tasks and heuristics, creativity, its aspects and limits.

Individual assignments:
